INITIATIVES LAUNCHED

COVID-19 PIVOT TO VIRTUAL

For the first time in MT's 25 year history, the entire program (workshops, small groups, coaching, and consulting!) went virtual, serving hundreds of new individuals and dozens of new organizations. Among the various initiatives that we invested in throughout 2020, here are two that stand out:

LAUNCHED VIRUTAL COMMUNITY

In order to address the isolation of "social distancing," Mission Triangle facilitated 21 leader zoom meetings leading to depth and solidarity.

NONPROFIT ESSENTIALS WORKSHOP

In our first ever virtual workshop, we provided a first ever overview full look into the six core competencies of a nonprofit.

ATTENDEES
PRESENT

Ship Community Outreach began engaging with Mission Triangle in 2019 and stepped into programming fully in 2020. Located in the heart of SE Raleigh, SCO's mission is "to be neighbors working together for social and economic change to uplift our community." Over the course of 20 years they have impacted the community through more than a million instances of service in the areas of food, job training, pastoral care, health and wellness, and safety. And in 2020, they took huge steps toward long term organizational health and sustainability through working with Mission Triangle on the following core projects.

"Mission Triangle is helping us do exactly what we need... three year, five year, ten year plans."

Chris Jones
